This product is a synergistic blend of a highly biodegradable surfactant system, stabilized hydrogen peroxide and citrus terpenes. This all-purpose cleaner/degreaser is environmentally friendly and is formulated with raw materials derived from natural sustainable resources to quickly remove everyday soils and stains. The surfactant system meets Green Seal's GS-37 standard and is based on our DST technology (Fast Dynamic Surface Tension), allowing for superior penetration and removal of oily/greasy soils. Hydrogen peroxide reacts with organic stains, breaking them down and neutralizing the unpleasant odors. This product effectively cleans windows, mirrors, floors, walls, carpet, restrooms, kitchens, tile and grout.
