FOAM DEGREASER

Self foaming alkali cleaner

- Penetrates and lifts dirt and soil

SUPER BRAND

014

CONCENTRATE

This product is a self-foaming alkali cleaner and degreaser for cleaning floors, walls and processing equipment in general food processing areas. Formulated with a blend of alkali builders, chelating agents, detergents and solvents, it is effective for removing fatty and greasy soils from all hard surfaces. May be used with foam generating equipment, pressure washing, or manual cleaning.

DIRECTIONS FOR USE

Remove cap. With handle facing left, insert into cabinet until it locks into place. Press button to start flow of solution; release button to stop flow of solution.

To lock the high flow button in the ON position: Press button until it locks into place.

To unlock, press release button on left side of pump.

To remove concentrate, place hand under container, slide release lever to the right and pull concentrate container out.

FOAM CLEANING: Apply a liberal amount of foam to all surfaces to be cleaned. Some brush agitation may be necessary to loosen dried soil or a heavy build up of soil from surfaces. Allow the foam to remain in contact with the soiled surface for 3 to 5 minutes before flushing cleaning foam off with a potable water rinse. Apply a final rinse of #14 and allow surface to air before the next use.

HAND CLEANING: FDC Foam Degreaser is safe on most surfaces and is an excellent all-purpose cleaner for removing tough soil. Gloves should always be worn as a precaution when hand cleaning to prevent the risk of skin irritation. .
